## PROFESSIONAL SUMMARY

Computer Science graduate and MCA (Data Science in Software Engineering) student with a strong foundation in programming, SQL and database management, and data analysis using Python. Experienced in training students in programming and Excel, which has strengthened my ability to explain complex concepts clearly and communicate insights effectively. Seeking a Data Analyst role to apply analytical, problem-solving and data-driven decision-making skills to real-world business problems.

## TECHNICAL SKILLS

|                         |                                                                                                                 |
|-------------------------|-----------------------------------------------------------------------------------------------------------------|
| <b>Data Analysis:</b>   | Data cleaning & preparation, exploratory data analysis (EDA), data-driven decision making, reporting & insights |
| <b>Python for Data:</b> | Python data-analysis libraries, data manipulation and analysis                                                  |
| <b>Databases:</b>       | SQL (queries, data retrieval & management), SQL Workbench, database management                                  |
| <b>Tools:</b>           | Advanced Excel, SPSS (basic), Tally Prime, Visual Studio Code                                                   |
| <b>Programming:</b>     | Python, C, C++, Java, HTML, CSS, JavaScript, OOP, Data Structures & Algorithms (DSA)                            |
| <b>Professional:</b>    | Presentation development, digital teaching methods, data storytelling                                           |

## PROFESSIONAL EXPERIENCE

### Programming Language Trainer

2021 – Present

Core Computer Planet, Haridwar, India

- Train students in C, C++, Python, Java, HTML and CSS, from fundamentals to practical problem solving.
- Provide one-to-one guidance and additional support sessions to help students master difficult concepts.
- Simplify technical topics through structured, hands-on instruction and regular practice.

### Excel Trainer

11/2021 – Present

Core Computer Planet, Haridwar, India

- Train students in basic and advanced Excel, focusing on practical data handling and analysis.
- Conduct interactive, practice-based classes that improve learners' skills and confidence.

### Data Entry Operator & Database Management

Core Computer Planet, Haridwar, India

- Performed accurate data entry and basic database operations using SQL Workbench.
- Maintained well-organised records and files, ensuring data accuracy and easy retrieval.

## EDUCATION

### MCA – Data Science in Software Engineering

Pursuing

Roorkee Institute of Technology (RIT) – NAAC A++

### Bachelor of Science – Computer Science Engineering

01/2025

Hemvati Nandan Bahuguna Garhwal University

### Advanced Diploma – Computer Application

Institute of Computer & Manual Accounts

## CERTIFICATIONS

- Diploma in Computer Application, Advanced Excel & Tally Prime – 11/2023

## CORE STRENGTHS

Problem Solving ■ Analytical Thinking ■ Communication ■ Teamwork ■ Time Management

## LANGUAGES

English – Fluent ■ Hindi – Good

## INTERESTS & PERSONAL DETAILS

Coding and logical problem solving ■ Reading personal-development and knowledge-based books ■ Travelling
